CAPACITY

FEATURE

BENEFIT

Huge Capacity

Get a staggering 30+1 capacity. This means less time reloading and more time shooting.

TEMPO™ Barrel System

A front gas port keeps everything locked up until the bullet exits the barrel. This gives you a more consistent, more reliable, and more accurate platform.

Optics-ready

Direct mount most of the popular micro red dots on the market for an easier-to-see sight picture.

M&P®22 MAGNUM pistol comes with two 30-round magazines

The New M&P®22 MAGNUM pistol.

This handgun is all about bringing more – more capacity, more reliability, more consistency, more excitement. With a staggering 30 rounds in the magazine, you can enjoy more time shooting and less time spent reloading. Using the Tempo™ barrel system, the front gas port keeps everything working as it should – no moving parts until they're supposed to be moving. With an optics-cut slide, out of the box, you can mount most micro red dots and hit the range. Get more with the new M&P®22 Magnum.
